

SERVICIOS ELÉCTRICOS Niño

EXPERTS IN ELECTRICAL INSTALLATIONS SINCE 1997
PIEDRAS NEGRAS, COAHUILA, MÉXICO

About us

Servicios Eléctricos Niño is a company with **28 years of experience**, founded in Septmeber 1997 by Mr. Sergio Niño Barrientos in Piedras Negras, Coahuila, Mexico.

We provide electrical solutions across the northeastern region of Mexico, guaranteeing quality and professionalism in every project. We specialize in the supply and installation of electrical equipment and infrastructure for both the public and private sectors, as well as offering high-quality equipment rental services.

Mission

To provide safe, efficient, and high-quality electrical solutions throughout northeastern Mexico. We are committed to delivering reliable service backed by 27 years of experience, innovation, and a highly trained team—always prioritizing customer satisfaction and compliance with current regulations.

Vision

To be the leading electrical service company in northeastern Mexico, recognized for our excellence, reliability, and innovation. We aim to continue growing and evolving with cutting-edge technology, delivering sustainable solutions, and building long-term trust with our clients.

The background is a dark blue-tinted photograph of an electrical warehouse. In the foreground, a worker in a red safety vest with 'SERVICIOS ELECTRICOS' and 'MRO' printed on it is visible. In the background, another worker in a red hard hat and safety vest is working on a high shelf. A 'Carrier' logo is visible on a unit in the background. The right side of the image features a bright yellow diagonal gradient.

EQUIPMENT RENTAL

Equipment Rental – Scissor Lifts

We offer **19 ft, 26 ft, and 32 ft** aerial lifts, ideal for working safely and efficiently at height. Two of our 19 ft units are certified and insured, ensuring reliable performance and enhanced safety. Our fleet includes trusted industry-leading brands such as:

GENIE

SKYJACK

MEC

JLG

Articulating Boom – Lift Rental

We offer a **JLG E400AJP Narrow** articulating boom lift, designed to provide extended reach and easy access to hard-to-reach work areas. It is the ideal solution for installation, maintenance, and inspection projects, delivering safety, efficiency, and outstanding performance.

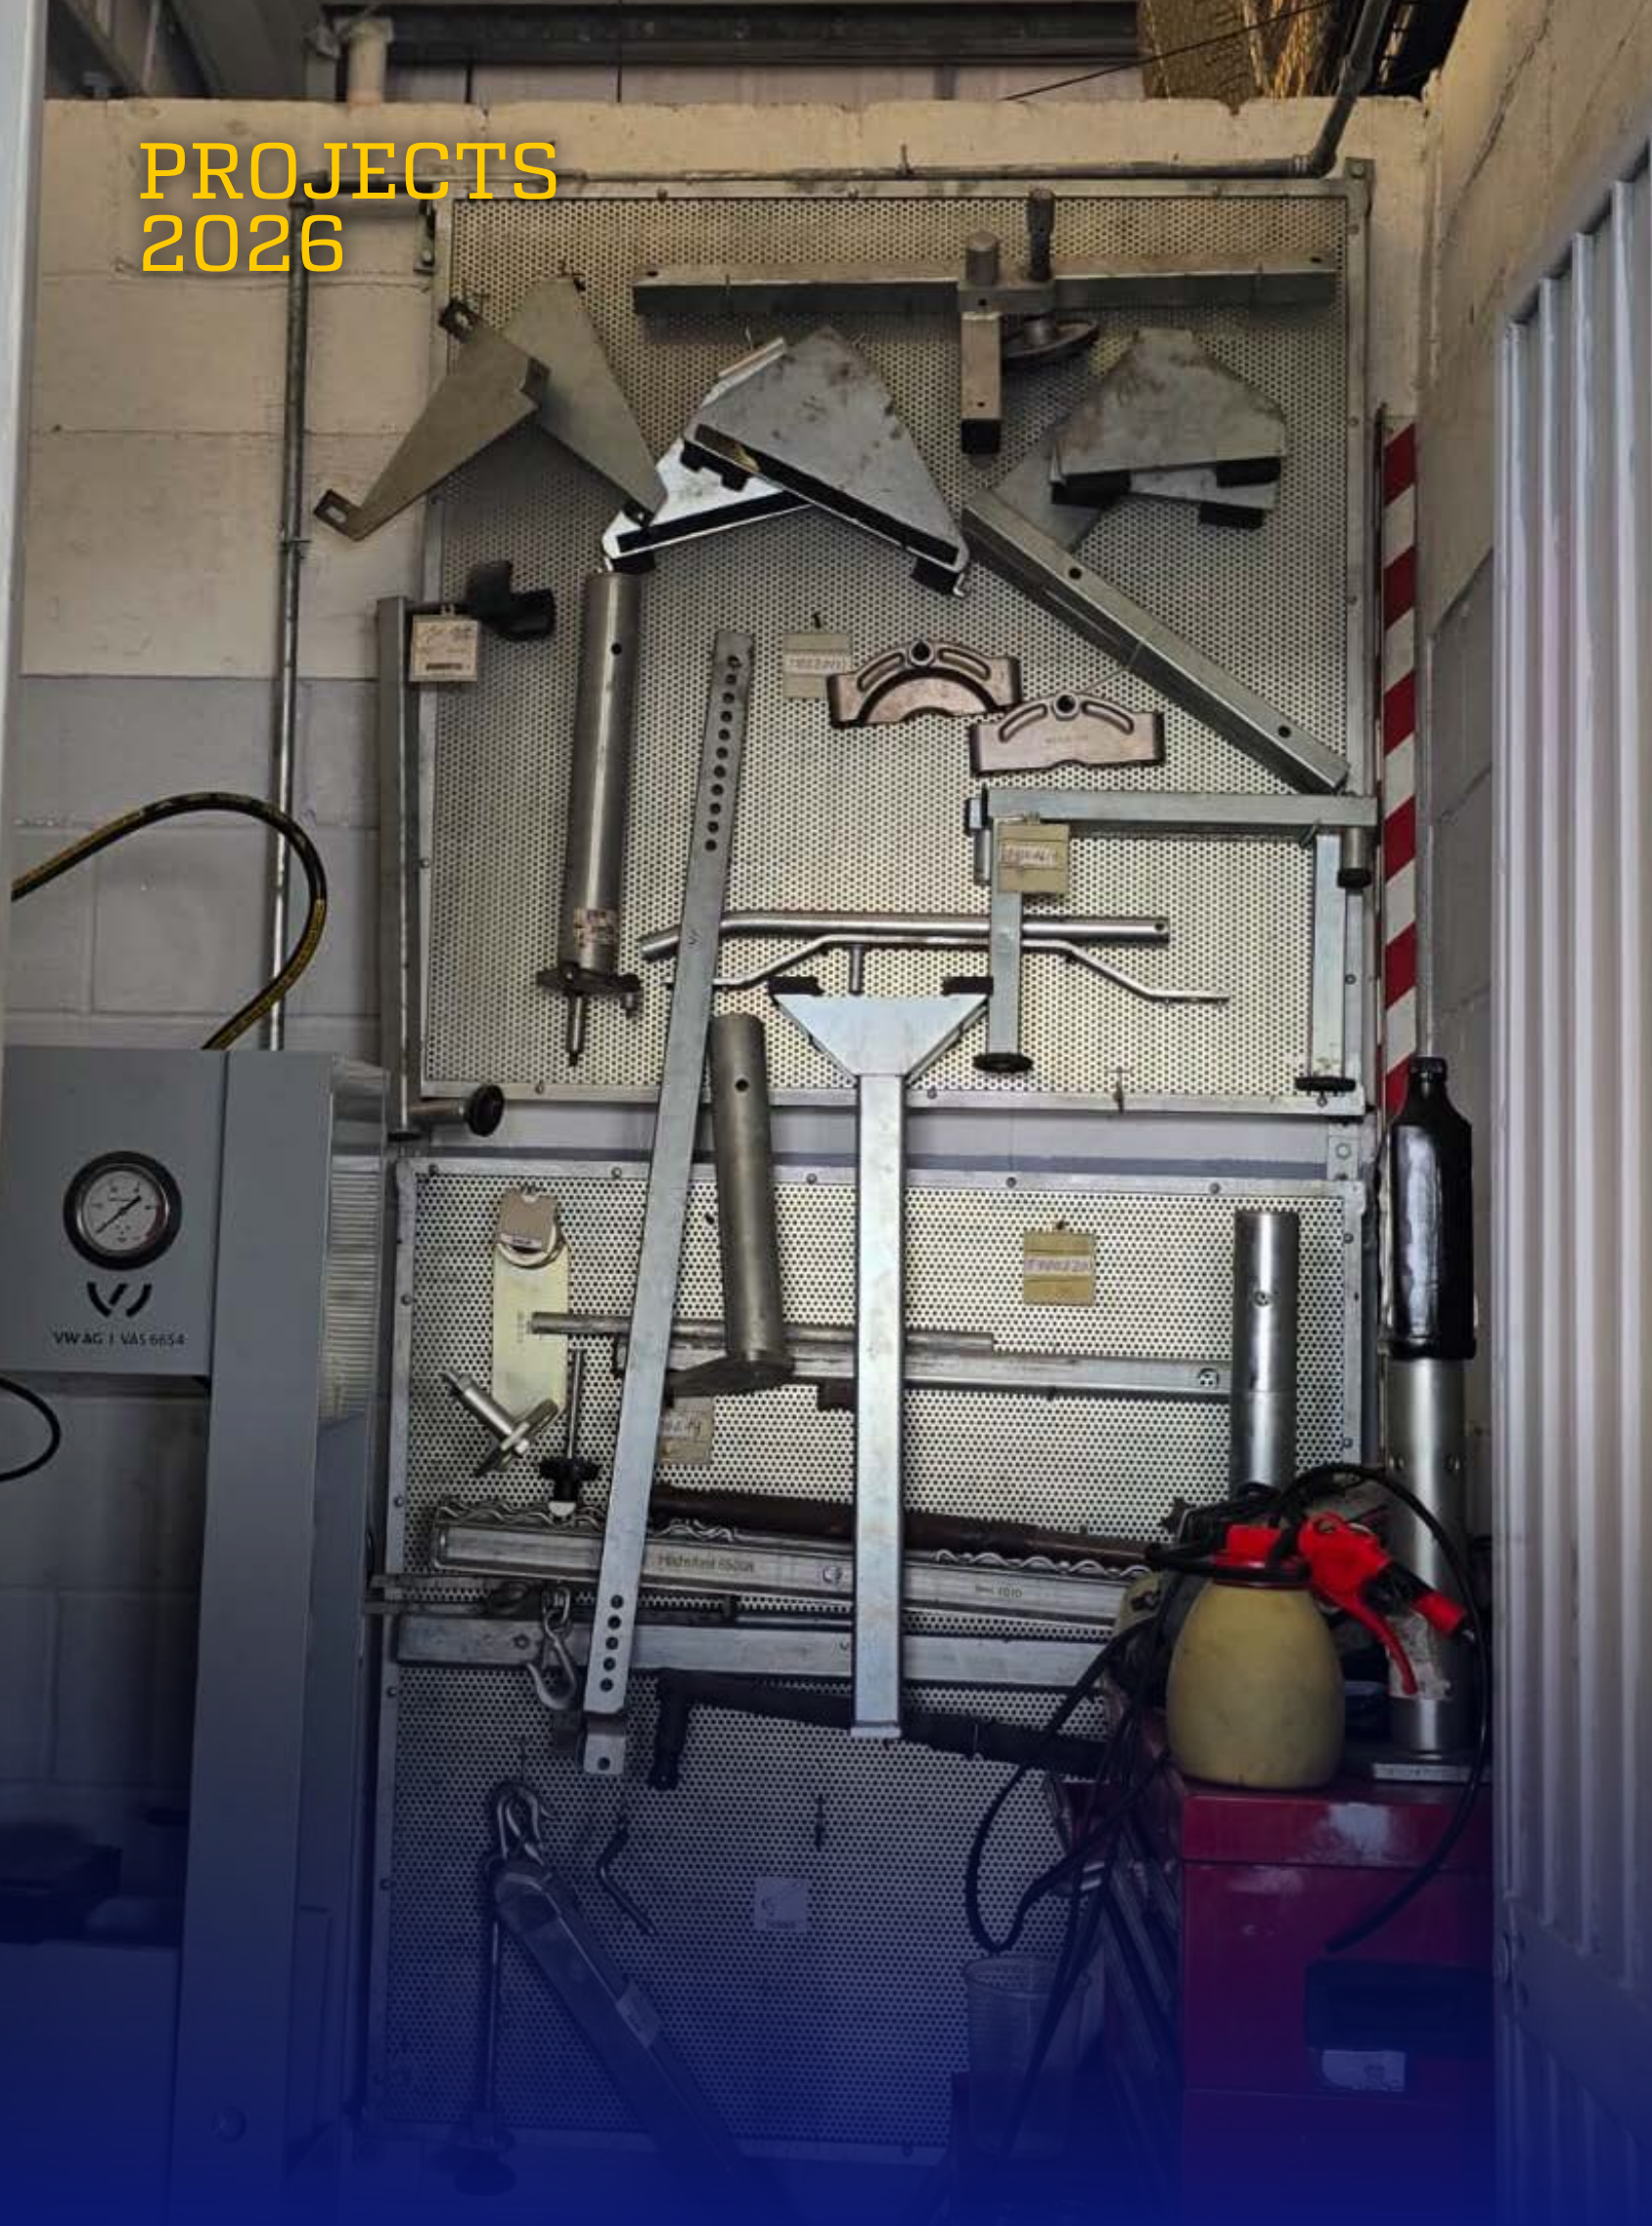

A background image of a construction worker in a trench, wearing a hard hat and safety vest, with a blue overlay. A yellow geometric shape is on the right side.

RECENT PROJECTS

Installation of an ammonia detection system with an alarm and warning lights to enhance operational safety in the area.

Installation of a pneumatic supply system with its associated components, as well as the replacement and validation of electrical contacts through voltage testing.

127-volt power supply to contacts to ensure a reliable power supply in the work areas.
